

R Wild Horse Ranch

JR. WRANGLER PROGRAM

This program will provide an opportunity for R Ranch youth and adults to learn the basics of horsemanship and related barn and ranch maintenance, in a safe and supportive environment. Starting from the ground up, instruction will be offered to allow progressive learning of skills so each participant can eventually contribute to the proper care of R horses and assist R wranglers.

JR. WRANGLERS: R youth will gain knowledge and climb to higher skill levels through fun learning experiences while allowing the more advanced the opportunity to share their knowledge with those of lesser experience. They may take pride in increasing the quality of life of R horses, while achieving personal growth, responsibility and leadership qualities.

SIDEKICKS: Adults will progress through the same framework of stages to gain skills and knowledge. Upon completion of training they may assist the wranglers at the barn and help guide our youth through the program.

Such skilled and responsible participation of R Ranch owners can only enhance the operation and the enjoyment of our ranch.
